product introduction

kindly inform you we can manufacture two kinds of collapsible water tank, one is non-portable water tank, you use it as rainwater collection, emergency storage and relief, irrigation, fire fighting and water treatment, ect. this raw material we called PVC

The other raw material we usually use TPU, this cost are more expensive that PVC as it is a food grade material, this tank can store the drinking water, milk, juice and other liquid. it also can store fuel for transportation

Our all water tank material is both Anti-UV, have a good tensile strength, tear strength, and so on.

Pillow tanks and flexible storage bladder tanks are collapsible, foldable and easy-to-store when not in use. Pillow tanks or bladder tanks are used for storing liquids on a temporary as well as long-term basis and provide a solution for emergency water storage.

Item name:pillow water tank
Model No.:KSD-007/KSD-001
Material:PVC or TPU
Fitting on tank:1pc inlet valve and 1pc outlet valve
Tank volume:500 to 200.000liter

**This tank can't stand-up by itself if it is empty,
we make one water wings on the top around,
you can fill air into water wings firstly,then fill water into the empty tank,the water wing will
slowly stand-up by itself during to filling water,you can choose it to collect rainwater and fish
hatchery, fire fighting ect.**

Item name: onion top open water tank
Model No.: KSD-008
Material: PVC or TPU
Fitting on tank: 1pc outlet valve
Tank volume: 500 to 10000 liter

This customized water tank we mainly supply for Saudi Arabia, it is our hot sale product with Unique design and good water storage

Item name: Customized Inflatable Water tanks
Model No.: KSD-008
Material: PVC or TPU
Fitting on tank: flexible pipe and valve
Tank volume: 600 to 18000 liter

A fuel bladder tank or fuel blivit, from Ready Containment can store diesel, gasoline, avgas, mogas, and more. Our top-quality bladders are built to last. We use first quality, military-spec, urethane fabric with factory-sealed encapsulated edges and anodized eight-bolt aluminum flanges to help ensure a leak-free fuel tank.

Item name:Fuel Tank

Model No.:KSD-010

Material:TPU

Fitting on tank:flexible pipe and valve

Tank volume:6m³ to 1iter 500m³

3.00inch inlet fitting

3.00inch outlet valve

3.00inch air relief

1.00inch inlet fitting

1.00inch outlet valve

1.00 air relief

Foldable Jerry can, this foldable fuel bag uses food grade material, we mainly supply to Alaska as there are many personal aircraft

Collapsible 20 litres jerry can

Model No.:KSD-011

Can be used for 4 x 4, boats, Aircraft and Motor Bikes.

Made from durable materials - Fiber-reinforced polyurethane/Thermal Plastics. Comes with 38mm filler cap and internal threaded reverse flute for easy draining in any situation Puncture resistant, light weight and easy to store. Folds down to approx A4 size Military Spec reinforced TPU with odour proof barrier

Drop test height of 30m

eyelet size: 12mm-13mm

Foldable Jerry can, this foldable fuel bag uses food grade material, we mainly supply to Motorcycle Club

Item name: Collapsible 7 litres jerry can
Model No.: KSD-012
Material: TPU
Fitting on bag: caps and nozzle gasket ring

Pool Series

it mainly include frame pool and inflatable pool with rectangular and round shapes, such as fish pool, swimming pool, various types of tracks.the pool can be customized according to customer request.

rectangular frame pool

KSD-013 round frame pool

about the fish pool we usually have pvc tarpaulin fish pool ,polygon galvanized pipe frame fish tank,plactic pipe frame fish pool,steel wire mesh tank

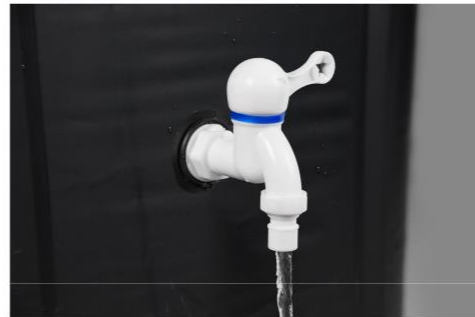

KSD - 014 inflatable pool

1-1200 square meters

KSD-015 Top quality rainwater barrels

KSD-016 Inflatable Bathtub For Adults

KSD-017 collapsible spa hot plastic bath

KSD-018 stylish and luxurious

geodesic dome kit
